Massey Ferguson Global Series

The new workhorses of the world

With the new Global Series, Massey Ferguson has taken the concept of the utility tractor and re-engineered it from the ground up to meet the needs of present and future farming. On offer in this power bracket is an array of build specifications, options and accessories, all designed to help tailor your machine exactly the way you need it for your farming operation.

In-built reliability, integral dependability

Massey Ferguson engineers have farming in their blood. They know exactly how crucial it is that a tractor meets the challenges that nature can put in the way of any farming activity. So whether it's making the most of short weather windows to complete jobs in the field, or battling through the elements to ensure livestock are

looked after, these are machines that can be relied on all year round, in all weathers, in all environments. With the Global Series each component and every assembly has been designed to ensure rock-solid reliability and dependable operation.

MF4708

The muscle to tackle any task
 For proven reliability, ruggedness and fuel economy, a 4.4-litre AGCO POWER four-cylinder engine provides the heart of the 85 hp Massey Ferguson 4708 model, providing 342 Nm of torque at 1,500 rpm.

Global Series

Since the inception of the brand, Massey Ferguson has produced more than four million tractors in the 60 – 120 hp bracket. It's a power sector that once represented the largest tractors available, yet now accounts for a size of machine found in almost every farming operation around the world. Suitable for a multitude of tasks throughout Southeast Asia, and tailored to meet your specific requirements, these are the tractors the world's planters depend on day in, day out – the new Massey Ferguson Global Series.

A New Tractor For A New World

Massey Ferguson's resilient utility tractors have been built to service Southeast Asia's farming communities. Designed from the ground up, these world-class Global Series tractors can handle our rich agricultural landscape with

proficiency and ease. Manufactured to exacting standards, Massey Ferguson Global Series tractors are built in the latest high-technology facilities to ensure planters experience an unbeatable performance, every day.

Product Features

- 1. 4-cylinder or 3-cylinder AGCO POWER Engine
- 2. 12 x 12 synchromesh transmission with synchronised shuttle
- 3. Pivoting front bonnet
- 4. Footstep or Semi Platform or Operator Station
- 5. 4WD front axles
- 6. Electro-hydraulically engaged rear differential lock and 4WD
- 7. Electronic Linkage Control (ELC)
- 8. 540 or 540/540E rpm Independent PTO
- 9. Two Auxiliary spool valves
- 10. Folding ROPS and optional sun canopy
- 11. Gear Driven Open Centre Hydraulic System

Supported by the worldwide might of AGCO and Massey Ferguson

Massey Ferguson dealers can be found in significant numbers in almost every country across the globe. They are run by trained staff who know Massey Ferguson machines inside out, and are able to provide advice, parts, service and support whenever required to keep your Global Series tractor running at its optimum. And they are backed by the resources of AGCO, parent company of Massey Ferguson and a world leader in farm equipment. So wherever you farm in the world, you can be sure that your Massey Ferguson Global Series tractor will be supported by the best team in the business of farm equipment.
